Certified General Data Protection Regulation (GDPR) Practitioner

GCHQ Certified Training Course

Summary

Between 26th February to 2nd March 2018, Comsure is offering training (limited to 15 delegates ONLY) to provide the highest level of quality assessment and assurance for those who are managing and controlling cybersecurity risk in their firms.

This five-day comprehensive practitioner course, with independent APMG exam, will provide a practical guide to planning, implementing and maintaining compliance with the new General Data Protection Regulation (GDPR) Regulations.

Under the new EU data protection regulations, the appointment of a Data Protection Officer (DPO) will be mandatory for certain controllers and processors. Furthermore, there is an expectation regulated financial services, and their directors and officers (e.g. compliance) will have a detailed appreciation of the risks. The Knowledge needed for this developing and challenging risk area will require insight into such matters as:-

- 1. Cyber threats and risks,***
- 2. Data breach management,***
- 3. Privacy compliance and***
- 4. The legal spectrum of the GDPR.***

This course is suitable for data protection officers, HR Professionals, compliance officers, auditors, IT & Security Professionals.

On day 5, delegates will sit an independent APMG exam, based upon the materials covered in this GDPR Practitioners course. Successful exam delegates will receive an APMG certificate.
